

DAMPOLO PHOTOGRAPHY

Services & Pricing Guide

www.dampolophotography.com

Hello there!

Thank you so much for considering Dampolo Photography to capture your memories!

This guide was designed to help give you an idea of who you'll be working with and what to expect from booking with us.

We'll offer a step by step guide from inquiring all the way through to gallery delivery. This includes pricing, styling guidance, and coordination.

Any questions you have should be answered within this guide, but if they aren't... please let me know!

Rachel Dampolo

Rachel Dampolo, Owner & Photographer

Meet the team

We are Rachel + Jesse Dampolo, a husband and wife duo that make up Dampolo Photography.

Rachel runs the photography side of the show, and Jesse is the videographer extraordinaire!

We take a fun, natural approach to your session. We don't want these images to be or feel forced, we want to capture true moments that will help to tell your story.

We have 2 young children so we understand how to work with the little ones for family sessions. We make it fun, and keep the session flowing in a way that makes it exciting for the entire family.

Nervous in front of the camera? No problem, we will work with you to make you feel comfortable and end up with beautiful memories you can cherish forever.

"We know how to work with kids to refocus all of that energy into fun moments that translate into beautiful images!"

How It Works

01 INQUIRE & CONSULTATION

Let us know what type of session you're looking for, what timeframe you're looking for, discuss location options and ask any questions you'd like. We'll chat about our availability.

02 CUSTOM BOOKING LINK

Once we come up with a date that works for both of us, you'll be provided a custom booking link. Through this, you'll make your deposit, sign a contract, and book your date.

03 ATTEND YOUR SESSION

Here's the fun part... taking your photos! We'll meet at the location, have tons of fun taking photos. We have prompts and pose ideas that we use, so no need to worry about being awkward in front of the camera.

04 RECEIVE YOUR GALLERY

Within 2-3 weeks of your portrait session, you'll receive an e-mail with a link to your online gallery. You will download your images & even share the link with friends & family. You can also order prints directly through the gallery.

Testimonials

Jessica L.

"Had the BEST time during my branding / headshot photoshoot! The photos came out SO beautiful and the turn around time was less than a week!! Will definitely use her again!"

Emily Z.

"We loved working with Rachel! We had three sick kids, rescheduled once, brought our dog last minute- she rolled with all of it and captured some beautiful family photos that we adore. Highly recommend!"

Christina S.

"Excellent work, very nice people, what more could you ask for? I highly recommend Rachel & Jesse to anyone looking to capture special moments!"

“

"Dampolo Photography will make your dreams come true. Jesse and Rachel are incredibly kind, fun, easy to work with, and professional. The assistants they brought to help cover our wedding honored those same morals. Getting married was the best day of my life and I have photos that truly capture that feeling in it's entirety. Rachel's determination to capture the day for her clients is admirable. One can tell that she really loves her job. Her photos are incredible... just incredible! Jesse covers the filmography portion of the wedding and the finished product will leave you and your spouse speechless. I watch my wedding video a lot... like maybe too much. It's one of my favorite things. It is more than just a documentation, it's a memory, a memory of the best day of my life. I can't thank Jesse and Rachel enough for what they did for us. Thank you! The decisions you make planning a wedding will be difficult, but hiring Dampolo Photography is the easiest decision you'll make."

- JOSHUA K.

FAQ's

My kids are crazy, do you think we'll be able to do a photoshoot?

Of course! We make the sessions fun, we don't make the kids stand and say cheese... we keep things moving and have lots of fun prompts and 'games' to keep the kids laughing and smiling.

I think a full session is too long for me, do you offer mini sessions?

We do offer mini sessions which are usually 15-20 minutes and include a small amount of images. We only offer them as events at specific locations & dates throughout the year. Returning clients will get an e-mail with first dibs to sign up, then sign-ups go public on social media the following day.

Do I need to find a location, or do you help with that?

We have a whole menu of locations we love to use and can offer suggestions based on what you're looking for (beach, garden, city, etc.) including a couple different studios available to rent. We are happy to come to your home, and are always open to try out new locations if you have something in mind.

Do you have a client closet to rent outfits/gowns from for my session?

We do have a client closet with many dresses & gowns for various sizes! We have many maternity and size adjustable options. We will discuss styling as part of our initial consultation and this guide includes a page with styling advice!

Can I bring my dog or pet to my session?

We are huge animal lovers and welcome your pets to any session. Some locations we use do have restrictions on whether or not pets are allowed. Many locations allow pets during certain times of the year. If you want to bring a pet, just ask ahead of time!

What to wear?

Neutrals

Neutral colors & earth tones are perfect for any session. Pair a neutral top with a pair of jeans or linen bottoms. Comfort is the top priority!

Bright colors & loud patterns can be distracting from the beauty of the subject... you!

Long & Flowy

When it comes to dresses & skirts, length is best! A long flowy skirt offers a lot of motion in photos. Shorter skirts can limit the types of poses you're able to without showing too much! Want to show off a bit of leg? Try a long length with a slit instead of a short dress.

Coordination is key

It's a good idea to coordinate colors without being too "matchy-matchy". This is another reason why neutrals are so versatile. Take this family for example, different shades of green and beige with a pop of light blue. The girls have very subtle patterns in their dresses as to not clash with one another.

Let's Get Started!

If you've already booked with us... THANK YOU SO MUCH! We cannot wait to work with you.

If you haven't yet... what are you waiting for?! Reach out to us today by phone or e-mail. The best way to get a quick response is to fill out our contact form by going to www.dampolophotography.com/contact
